

## C O M P A N Y   P R O F I L E

*We specialise in the research, development and manufacturing of high-quality herbal, nutraceutical and homeopathic products. With a firm commitment to natural healing, our product range is designed to support holistic health and wellness through safe, effective and scientifically-backed remedies.*

## MESSAGE FROM OUR CEO

***At Blossom Labs, our mission is simple: to deliver high-quality, authentic, nature-based health solutions you can trust. For over 20 years, we've specialised in the formulation and manufacturing of herbal, homoeopathic and nutraceutical products.***

*Behind every product is a passionate and exceptional team. Our experts in research, manufacturing and quality assurance bring dedication and integrity to everything we do. Their commitment is the foundation of our trusted reputation, both in Pakistan and beyond.*

*As we grow internationally, we're proud to offer our global partners a reliable source of remedies, produced with care, consistency and a deep respect for wellbeing.*

*Whether you're a distributor, retailer, healthcare provider or wellness brand, we're here to collaborate, support your goals with impeccable service to help bring natural healthcare to more people.*

*Together, let's advance natural wellness across borders..*

**Imran Jamash**  
CEO Blossom Lab.  
(Pvt) Ltd.

## ABOUT US

**Blossom Labs (Pvt.) Ltd. is a leading and trusted manufacturer of alternative and herbal healthcare sector, proudly operating in Pakistan since 2003. We are dedicated to developing high-quality, nature-based medicines that support better health and improved quality of life.**

Our modern, high-tech plant is equipped to produce a wide range of dosage forms including tablets, capsules, sachets, and oral liquids, managed by a team of over 300 skilled professionals.

We source only the finest raw materials, to ensure consistent product efficacy and safety. From research and development to packaging, our processes are designed for precision, scale and uncompromising quality. With a DRAP enlistment (No. 00181) and

GMP-compliant facilities, we are among the few alternative medicine manufacturers in Pakistan to meet such rigorous national standards.

Today, Blossom Labs products are trusted across Pakistan and are now reaching international markets. We are proud to contribute to a healthier tomorrow through innovation, integrity and excellence in alternative healthcare.

## OUR VISION

*To become a globally recognised leader  
in natural and alternative healthcare,  
enabling access to people everywhere to  
live healthier, better lives.*

## OUR MISSION

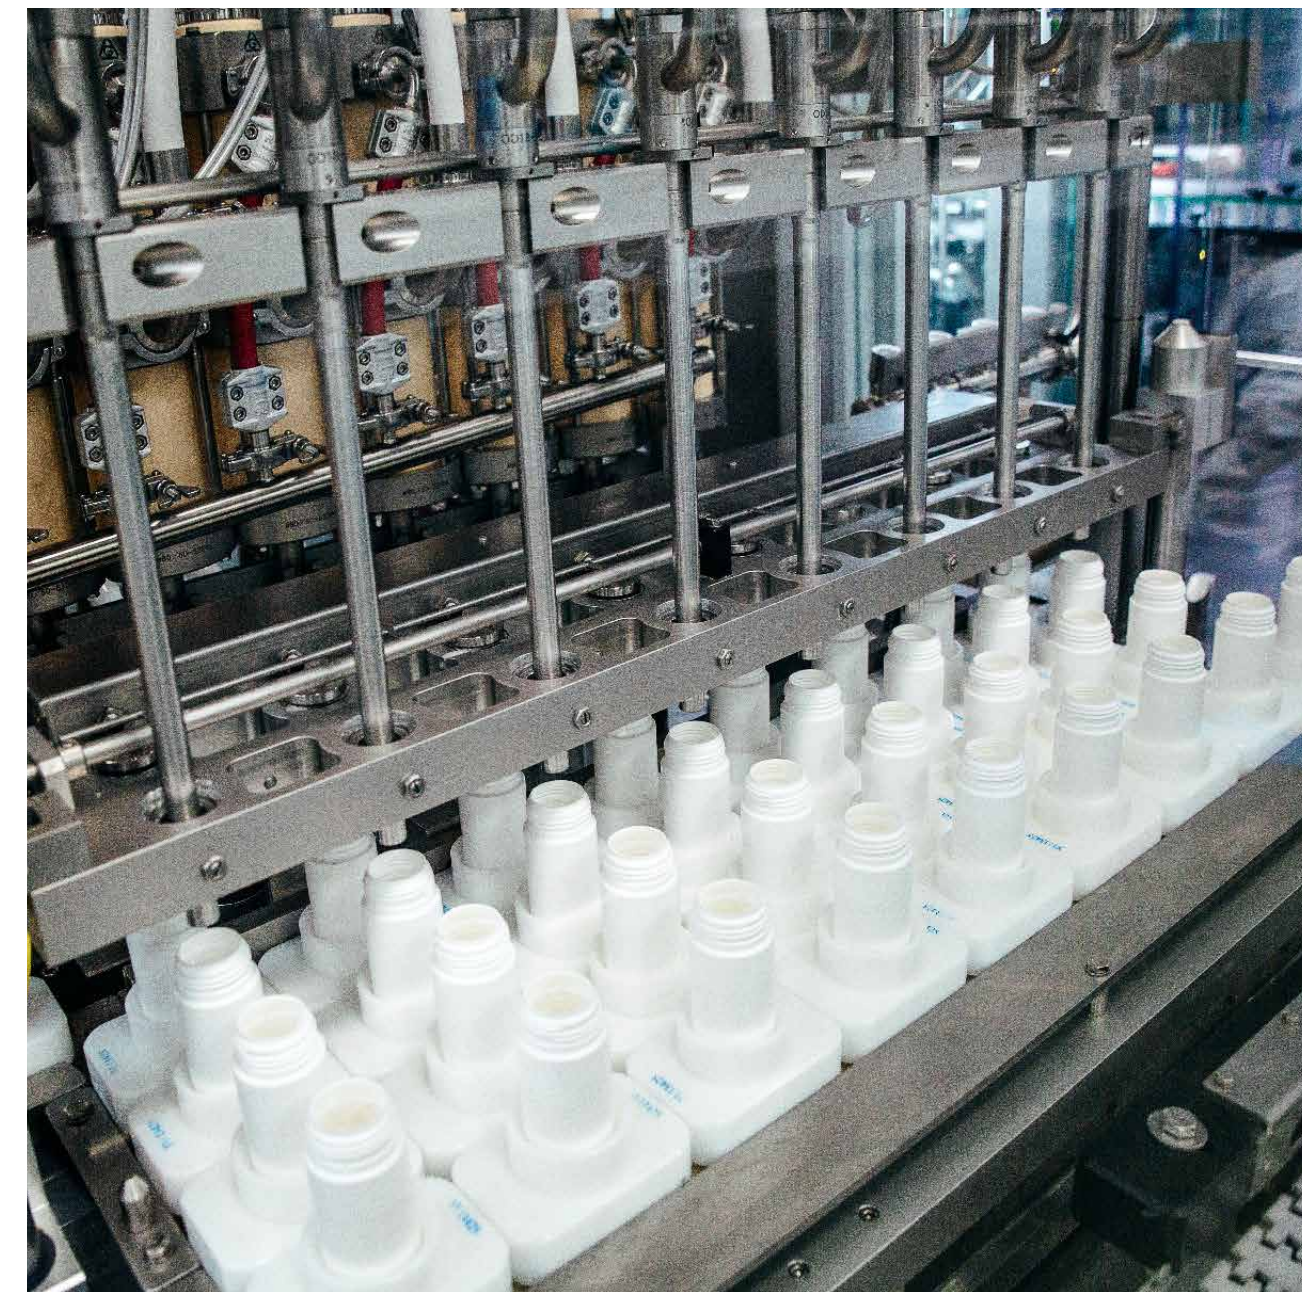

*To manufacture high-quality, natural health products,  
that are safe, affordable and effective - guided by innovation,  
integrity and a commitment to global standards and  
partnerships.*

## QUALITY CONTROL

*We are proud of our quality control process at Blossom Labs to produce safe and effective health and wellness solutions to customers around the world. Our commitment to quality will never be compromised.*

### RAW MATERIAL TESTING

*All incoming raw materials, including herbs, APIs and excipients, are thoroughly tested for identity, purity and potency before approval for production use.*

### IN-PROCESS QUALITY CONTROL

*QC analysts monitor critical control points during manufacturing to ensure process consistency and adherence to specifications.*

### FINISHED PRODUCT TESTING

*Each batch of the final product is tested against defined parameters including appearance, pH, active content, microbial limits and dissolution to ensure safety and effectiveness.*

## Herbal Products

Developed from time-tested botanical ingredients, sourced and processed with utmost care to preserve their natural potency. These products support the body's healing processes and are free from harmful chemicals or additives.

## Nutraceutical Products

Dietary supplements and functional health products enriched with essential vitamins, minerals and natural extracts. These are aimed at boosting immunity, improving energy levels and addressing nutritional deficiencies.

## Homoeopathic Products

Formulated using traditional principles, modern research and precise dilution techniques to provide gentle yet effective solutions for a wide variety of health conditions.

## HERBOPLEX LIVER SYRUP

Our Herboplex syrup is a premium, organic formulation designed to support and rejuvenates liver and gallbladder function.

This tonic is crafted for comprehensive liver care, addressing a variety of digestive and metabolic challenges. The syrup is tailored to promote healthy liver function, detoxification, and cellular regeneration. It works gently to support the liver's natural ability to metabolize fats and process toxins, ultimately contributing to overall well-being. It helps to manage and reduce the symptoms associated with jaundice. It is ideal for those experiencing a lack of appetite or digestive sluggishness.

Organic and function complaints of liver and gallbladder, hepatopathy swelling of the abdomen, premature satiety, lack of appetite, bitter taste in mouth, flatulence, constipation, weariness after meals irritation hypochondria.

### Each 5ml contains:

- > Powdered milk thistle extract (USP).....125mg
- > Taraxacum Officinale extract (USP).....27.55mg
- > Withania Somnifera (API).....2mg

> **Powdered milk thistle extract:** It's famous for being a natural detoxifier and being used to tackle liver diseases. It's particularly believed to help support the liver, the body's main organ for filtering out toxins, including alcohol. Milk thistle helps protect the liver, and may even regenerate new liver cells.

> **Taraxacum officinale extract:** Taraxacum officinale contains chemicals that might decrease swelling, increase urine production, and prevent crystals from forming in the urine that could lead to infections in the kidneys and urinary tract. Taraxacum officinale is useful for preventing and treating liver diseases and treat non-alcoholic fatty liver disease also.

## QALBEEN SYRUP

Here Some short text about the benefits of the product no more than 4 or 5 lines. Perhaps even shorter just 3 lines.

### Each 5ml contains:

- > Terminalia Arjuna (API).....0.5mg
- > Punica Granatum (API).....0.5mg
- > Allium Sativum (API).....0.5mg
- > Ocimum Sanctum (API).....0.2mg
- > Curcuma Longa (API).....0.1mg
- > Boerhaaviadiffusa (API).....0.2mg

> **Terminalia Arjuna:** Terminalia Arjuna is best known for its health benefits within the cardiovascular

> **Punica Granatum:** Punica granatum has a medical history as a medicinal plant. It can help lower blood pressure, reduce cholesterol levels and improve overall heart health. heart.

> **Allium Sativum:** This is an herbal or dietary supplement that some claim supports a healthy heart and cholesterol levels. It supports heart and blood vessel health. It may also decrease inflammation. .

> **Ocimum sanctum:** It plays an important role in antiplatelet aggregation and prevents risk of pulmonary hypertension. These cardioprotective properties prove that Ocimum may be treated as a good remedy against prevention and treatment of cardiovascular diseases.

> **Boerhavia diffusa:** Used to manage high blood pressure. It's used to treat edema (swelling) and fluid retention, which can be a problem in heart conditions..

> **Curcuma longa:** Accumulating studies have shown that curcumin plays a protective role in suppressing the development of cardiac hypertrophy, heart failure, drug-induced cardiotoxicity, myocardial infarction, atherosclerosis, aortic aneurysm, stroke and diabetic cardiovascular complications.

> **Withania somnifera:** Studies suggest that Withania somnifera can protect the heart from damage caused by ischemia (reduced blood flow) and reperfusion (restoration of blood flow).

## RAHAT-E-NISWA SYRUP:

Here Some short text about the benefits of the product no more than 2 or 3 lines.

### Each 10ml contains:

- > Rosa centifoli (API).....250mg
- > Butea frondosa flower (API)...250mg
- > Santalum album (API).....100mg
- > Cypraea tigris (API).....75mg
- > Anethum graveolens (API).....400mg
- > Saraca asoca (API).....450mg

> **Rosa centifoli:** Traditionally used to address issues related to the female reproductive system, including excessive menstrual bleeding, vaginal infections, and inflammation, as well as to alleviate PMS symptoms and potentially enhance fertility.

> **Butea frondosa flower:** Used in traditional medicine, including for reproductive health, studies suggest its flowers may have antifertility and estrogenic effects. lower blood pressure, reduce cholesterol levels and improve overall heart health. heart.

> **Santalum album:** Its leaves and bark are used to treat issues related to the female reproductive system like leucorrhea and amenorrhea.

> **Cypraea tigris:** Used as to balance female hormones and manage symptoms of menopause. It is used in traditional practices related to childbirth and protection.

> **Anethum graveolens:** It may help regulate irregular menstrual cycles. It can increase plasma progesterone concentration and the duration of the diestrus phase of the estrous cycle.

> **Saraca asoca:** Due to its potential uterine tonic, anti-inflammatory, and astringent properties. It's used to address excessive vaginal discharge (leucorrhea).

> **Withania somnifera:** Traditional Ayurvedic herb, is believed to support female reproductive health by promoting hormonal balance, curing amenorrhea and dysamenorrhea, enhancing fertility, and potentially improving sexual function.

## S . G   T A B L E T

Self Guard is useful for Sexual asthenia  
spermatorrhoea general debility especially in  
men.

**Each tablet contains:**

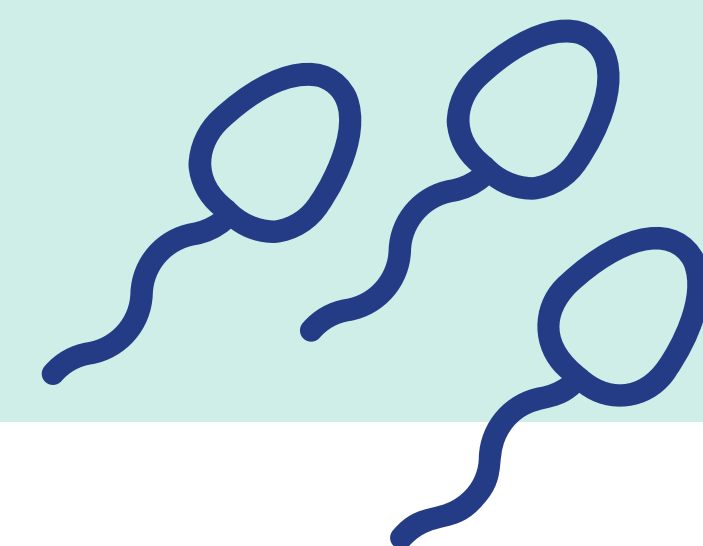

- > Tribulus terrestris (API).....300mg
- > Withania somnifera (API).....150mg
- > Argyreia speciose (API).....100mg
- > Mucuna pruriens (API).....64mg

**Tribulus terrestris:** Helps raise male fertility. Taking tribulus seems to improve sexual desire, arousal, sensation, ability to reach orgasm, lubrication, and sexual comfort. Research also shows that taking tribulus can improve sexual satisfaction in men with erectile dysfunction.

**Withania somnifera:** Used in Ayurvedic medicine, is believed to positively impact male reproductive health by potentially improving semen quality, sperm count, and motility, as well as regulating reproductive hormone levels.

**Argyreia speciose:** Traditionally used to address male sexual health issues, including erectile dysfunction, premature ejaculation, and spermatorrhea. Also may enhance libido and sperm quality. Argyreia speciosa (also known as Argyreia nervosa) is a plant with a history of use in traditional Indian medicine (Ayurveda) for its potential benefits related to male reproductive health. It is considered an aphrodisiac and is believed to increase semen fertility and improve overall sexual function.

**Mucuna pruriens:** Believed to improve male fertility by increasing sperm count and motility, potentially through its effects on the hypothalamus-pituitary-gonadal axis and by containing L-DOPA, which may enhance dopamine levels. Mucuna pruriens can improve semen quality in infertile men by increasing sperm concentration and motility. Mucuna pruriens contains antioxidants that may help combat oxidative stress, which can negatively impact sperm function and male fertility.

## ULSOBION TABLET

Here Some short text about the benefits of the product no more than 4 or 5 lines. Perhaps even shorter just 3 lines.

### Each tablet contains:

Curcuma longa (API)	125mg
Foeniculum vulgare (API)	125mg
Glycyrrhiza glabra (API)	125mg
Acacia Arabica (API)	125mg
Menthe Piperita (API)	20mg
Zingiber Officinale (API)	50mg

**Curcuma longa:** Curcuma longa has been shown to aid in the treatment of stomach ulcers and digestive disorders due to its active compound, curcumin.

**Foeniculum vulgare:** Foeniculum vulgare has gastroprotective properties, studies suggest its anti-inflammatory and antioxidant compounds help reduce gastric acid secretion and protect the

mucosal lining. Fennel also contains anethole, which has antispasmodic effects, relieving bloating and indigestion.

**Glycyrrhiza glabra:** Glycyrrhiza glabra (licorice) is widely used for stomach ulcers and gastrointestinal disorders due to its anti-inflammatory and mucoprotective properties.

**Acacia Arabica:** Acacia Arabica (commonly known as Babul) has been traditionally used for treating stomach ulcers and digestive issues due to its anti-inflammatory and gastroprotective properties. .

**Menthe Piperita:** Mentha piperita (peppermint) is known for its gastroprotective effects, aiding in stomach ulcer relief by reducing gastric acid secretion and enhancing mucus production. .

**Zingiber Officinale:** Zingiber officinale (ginger) has been shown to have gastroprotective effects, aiding in the treatment of stomach ulcers and digestive disorders. .

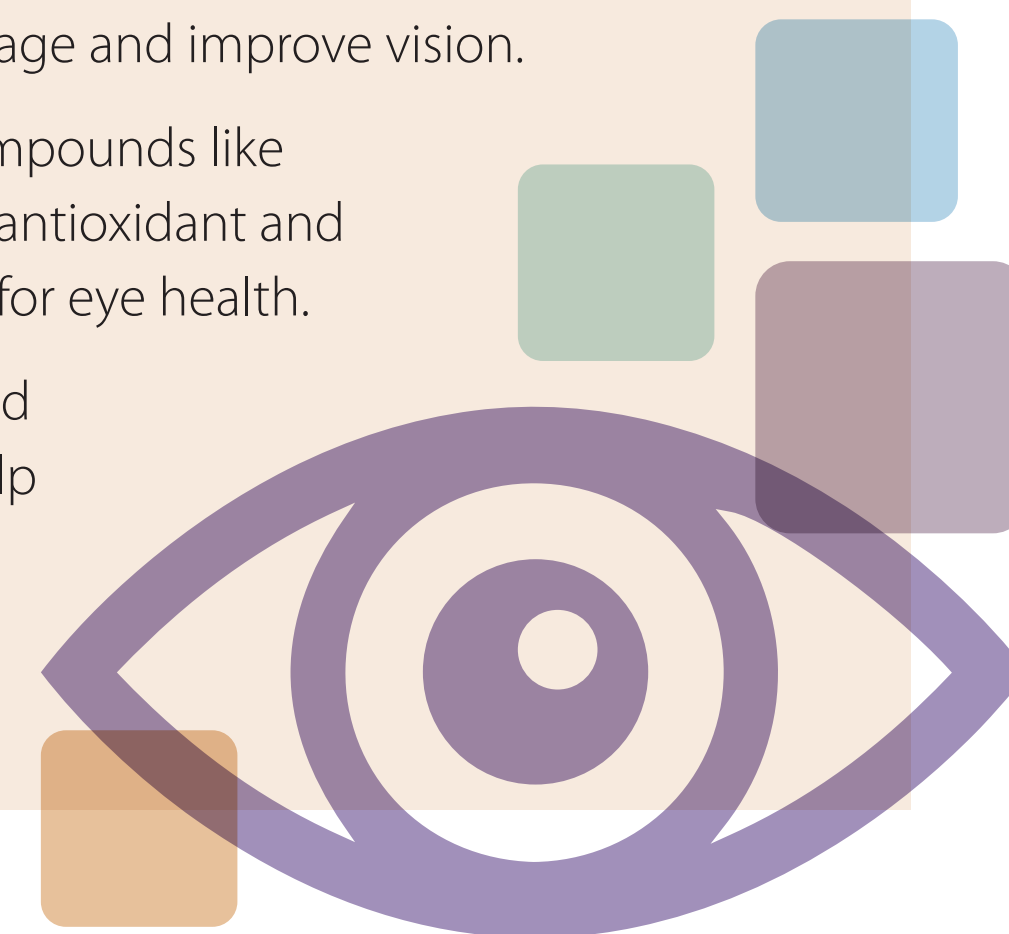

## LUTEVIT PLUS TABLET

Designed to help improve eyes and vision while delivering high potency antioxidant protection.

**Each tablet contains:**

- > Phyllanthus emblica (API) .....50mg
  - > Crocus sativus (API).....50mg
  - > Glycyrrhiza glabra (API).....50mg
  - > Ficus hispida (API).....50mg
  - > Tinospora cordifolia (API).....50mg
  - > Adhatoda vasica (API).....50mg
  - > Asparagus racemosus (API).....50mg
- > **Phyllanthus emblica:** Rich in vitamin C, antioxidants, and carotenoids, which play a crucial role in improving eye health and vision. Studies suggest that its high antioxidant content helps reduce oxidative stress in ocular tissues, lowering the risk of cataracts and age-related macular degeneration (AMD).

- > **Crocus sativus:** improves eye health and vision due to its powerful antioxidant properties. Research indicates that saffron can help slow down age-related macular degeneration by protecting retinal cells from oxidative stress.
- > **Glycyrrhiza glabra:** its flavonoids help reduce oxidative stress, which can protect retinal cells from damage. Its glycyrrhizin content has been found to reduce eye inflammation, as reported in Molecular Vision.
- > **Ficus hispida:** Rich in flavonoids, vitamin C, and antioxidants, which help reduce oxidative stress and support retinal health.
- > **Tinospora cordifolia:** Rich in antioxidants like lutein, which help protect retinal cells from oxidative damage and improve vision.
- > **Adhatoda vasica:** Rich in bioactive compounds like vasicine and flavonoids, which possess antioxidant and anti-inflammatory properties beneficial for eye health.
- > **Asparagus racemosus:** Antioxidant and anti-inflammatory properties, which help protect the eyes from oxidative stress and age-related vision decline.

## TRIBUMAX TABLET

For Physical enhancement, muscle growth and body strength. Sexual enhancement.

**Each tablet contains:**

- > Tribulus terrestris extract (Mfg. Specs)...500mg
  - > Ginseng extract (USP).....100mg
  - > Ginkgo biloba extract (USP).....20mg
  - > L-arginine (USP).....50mg
  - > Sodium selenite(USP).....33mg
  - > Zinc oxide.....50mg
  - > Vitamin E(USP).....100IU
- > **Tribulus terrestris:** Helps raise male fertility. Taking tribulus seems to improve sexual desire, arousal, sensation, ability to reach orgasm, lubrication, and sexual comfort. Research also shows that taking tribulus can improve sexual satisfaction in men with erectile dysfunction.

- > **Ginseng extract:** Improves male reproductive health by enhancing sperm quality, libido, and erectile function .
- > **Ginkgo biloba extract:** Improves erectile function by enhancing blood circulation . It protects sperm health from oxidative stress due to its antioxidant properties .
- > **L-arginine:** Amino acid that helps produce nitric oxide, which improves blood flow and may support erectile function in men with mild erectile dysfunction.
- > **Sodium selenite:** A bioavailable form of selenium, supports energy metabolism by aiding mitochondrial function and reducing oxidative stress. It helps combat fatigue by enhancing antioxidant enzyme activity, protecting cells from damage.
- > **Zinc oxide:** Supports energy metabolism and reduces fatigue by aiding ATP production and enzyme functions (Prasad, 2012).
- > **Vitamin E:** A potent antioxidant, helps reduce oxidative stress, aiding muscle recovery and fatigue reduction.

## GASTO-OFF SACHET

Dyspepsia, Flatulence, Heartburn, Bloating, and Gas trouble. It is completely sole and prepared with a combination of fresh and dried traditional herbs according to naturopathic pharmacopeia.

### Each sachet contains:

- > Menthol (USP).....0.25ml
- > Vitamin C (USP).....25mg
- > Fennel oil (USP).....0.5ml
- > Calcium carbonate (USP).....100mg
- > Anise oil (BP).....50mg
- > Powder ginger extract (IP).....50mg

> **Menthol:** This potent oil is also capable of killing myriad microorganisms that are associated with digestive and other problems. Other studies, moreover, suggest that menthol may be useful in treating irritable bowel syndrome, a common but hard-to-treat digestive disorder in which the bowel contracts, causing a crampy type of adult colic.

Gastoff Sachet is a fast-acting, convenient digestive remedy formulated to relieve common gastrointestinal discomfort. This medication is used to treat the symptoms of too much stomach acid such as stomach upset, heartburn and acid indigestion. It is also used to relieve symptoms of extra gas such as belching, bloating, and feelings of pressure/discomfort in the gut. Each individually packaged sachet ensures optimal freshness and easy use on the go. Regular use supports a balanced gastrointestinal environment and improved digestion.

- > **Vitamin C:** Helps your body produce enough collagen to keep the tissues of your digestive tract healthy.
- > **Fennel oil:** As well as having carminative properties which soothe the stomach, fennel essential oil is also a natural anti-spasmodic and people have long chewed on fennel seeds to ease cramps and hunger pangs.
- > **Calcium carbonate:** Popular remedy for indigestion, heartburn and acid reflux. It also helps clear acid from the esophagus. Its ability to neutralize stomach acid doesn't last long, though.
- > **Anise oil:** Commonly used for indigestion (dyspepsia) and a long-term disorder of the large intestines that causes stomach pain (irritable bowel syndrome or IBS).
- > **Powder Ginger extract:** Ginger root extract can nourish digestive tract, promote appetite, and protect stomach. It can be used in treating nausea induced by motion sickness or caused by stomach upset or virus.

## GASTO-OFF SYRUP

Dyspepsia, Flatulence, Heartburn, Bloating, and Gas trouble. It is completely safe and prepared with a combination of fresh and dried traditional herbs according to naturopathic pharmacopeia.

### Each 10ml contains:

- > Terminalia chebula (API).....10mg
  - > Phyllanthus Emblica (API).....15mg
  - > Terminalia Bellirica (API).....8mg
  - > Cuminum Cyminum (API).....20mg
  - > Zingiber Officinale (API).....10mg
  - > Fennel (API).....20mg
  - > Peppermint (API).....8mg
- > **Terminalia chebula:** Found in natural colon cleansers and used to address constipation, digestive disorders, irregular fevers, flatulence, ulcers, vomiting, colic, and hemorrhoids. It is also a good source of vitamin C and the minerals selenium, potassium, manganese, iron and copper.
- > **Cuminum Cyminum:** A compound in cumin called thymol is known to stimulate the glands that produce digestive enzymes, acids, and bile.

Gastoff Sachet is a fast-acting, convenient digestive remedy formulated to relieve common gastrointestinal discomfort. This medication is used to treat the symptoms of too much stomach acid such as stomach upset, heartburn and acid indigestion. It is also used to relieve symptoms of extra gas such as belching, bloating, and feelings of pressure/discomfort in the gut. Each individually packaged sachet ensures optimal freshness

- > **Phyllanthus Emblica:** Used in Ayurveda to aid digestion, soothe the stomach, and potentially alleviate conditions like acidity and bloating. It's believed to stimulate digestive juices, promote healthy bowel movements due to its fiber content, and detoxify the body.
- > **Terminalia Bellirica:** Relieves cough, treats indigestion, relieves burning sensation, relieves breathing difficulties, enhances stomach fire, helps in digestion, stimulates appetite, improves breathing, prevents ageing, prevents bleeding and treats diarrhoea.
- > **Zingiber Officinale:** It is used in hyperactive states of gut- like colic and diarrhea due to its calcium antagonist effect.
- > **Fennel:** Reduces a range of gastrointestinal problems such as indigestion, colic, stomach ulcers and irritable bowel syndrome. Known as excellent sources of nature antioxidants contributing to the daily antioxidant diet.
- > **Peppermint:** It reduces symptoms of irritable bowel syndrome. Peppermint oil contains L-menthol, which blocks the calcium channels in smooth muscle cells.

## SIPEP TABLET

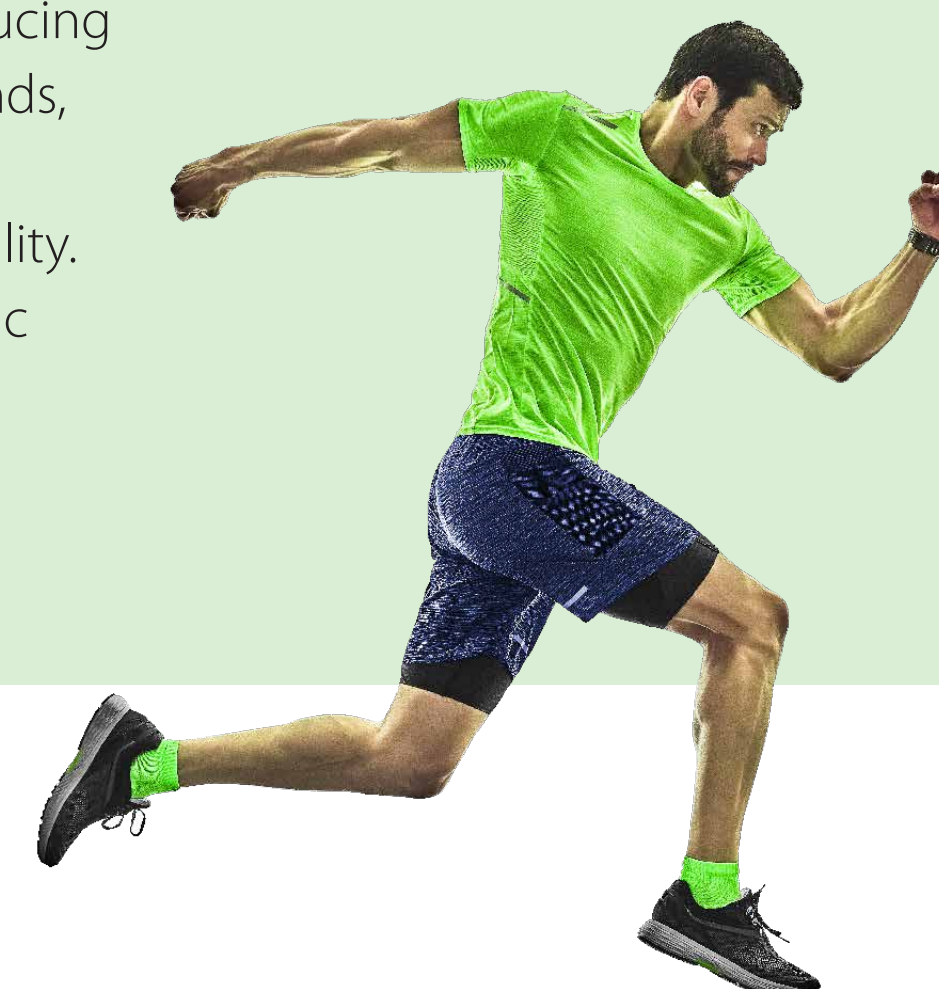

**Strengthens the immune system and combat daily fatigue. It helps reduce lethargy, and physical weakness restoring natural energy levels.**

The formula supports mental clarity, reducing mental exhaustion and stress-related fatigue. It alleviates shoulder, neck, and muscle pain caused by tiredness.

### Each tablet contains:

- > Willow Bark Extract (MS).....100mg
- > Ginger Extract (USP).....100mg
- > Turmeric Extract (USP).....150mg
- > Boswellia serrata Extract (USP).....100mg
- > **Willow bark extract:** Rich in salicin, is known for its anti-inflammatory and pain-relieving properties, which can help reduce oxidative stress and support immune function. Studies suggest its antioxidants may enhance overall health by combating free radicals, indirectly boosting energy levels.

- > **Ginseng extract:** Rich in bioactive compounds like gingerol, which has powerful anti-inflammatory and antioxidant properties that support the immune system.
- > **Turmeric Extract:** Rich in curcumin, enhances immunity by reducing inflammation and boosting antioxidant activity, as supported by studies in the Journal of Clinical Immunology. It improves energy levels by reducing fatigue and supporting mitochondrial function, as noted in Phytotherapy Research. Regular consumption aids overall health by promoting heart health, brain function, and digestion, according to The American Journal of Clinical Nutrition.
- > **Boswellia serrata Extract:** Known for its potent anti-inflammatory properties, supports immune function by reducing oxidative stress and modulating immune responses. Research suggests it enhances energy levels by improving mitochondrial function and reducing fatigue. Additionally, its bioactive compounds, such as boswellic acids, contribute to joint health, respiratory wellness, and overall vitality. Studies indicate its role in managing chronic conditions like arthritis and inflammatory bowel diseases, promoting long-term well-being

As we expand our global presence,  
we warmly welcome strategic partnerships  
in contract manufacturing and international  
distribution, particularly across Europe,  
the Middle East and other markets worldwide.
